National Park Service

Dear Park Service,

Thank you for accepting my comments concerning RIN 1024-AD72, the National Park Service rule change for bicycling. I fully support the proposed rule.

The special regulations process that restricts bicycling on trails is

unduly burdensome and duplicates protections that are already addressed by the NPS General Management Plan and the National Environmental Policy Act.

This proposed rule would give park superintendents better tools for opening trails to bicycling. It would also treat bicycles like other non-motorized trail uses, such as horseback riding.

Thank you for considering my comment. Bicycling is a wonderful way to explore our national parks and I hope the proposed rule change will be implemented.

Sincerely,

Mr. David Reilly
